## Directions of the Proper Authority for the whole of Sri Lanka Issued as Press Release

### Public and work-related activities effective from 01<sup>st</sup> – 31<sup>st</sup> March 2022

1. I Director General of Health Services (DGHS) being the Proper Authority for the whole of Sri Lanka, issue the following directions as a Press Release by virtue of the regulation made under the Quarantine and Prevention of Disease Ordinance No. 03 of 1897 published by the Minister of Health by Regulation No. 99 (1) and (2) published in Extraordinary Gazette Notification bearing No. 2253/10 dated 09. 11. 2021.
2. The directions were issued on 30. 11. 2021 bearing No. PA/DDG PHS II/3/COVID/Gen/2020 (sub 6) 4 as a Press Release is hereby further amended save and except as follows: -

Significant control of the COVID-19 epidemic in the country is achieved. However, there is still a risk for escalation in COVID-19 transmission due to cluster formation. Under this situation, the efforts taken in the gradual reopening of the country need to be sustained in the continued practice of DreAM in all situations.

It is important to comply with the directions issued by the Director General of Health Services, subject to quarantine regulations.

Proper adherence to these directions has given more responsibility to the Medical Officers of Health (MOH) in those areas for regulation and monitoring at the ground level. The contribution and active engagement of the relevant Ministries is very important to create the inter-sectoral relationship and awareness needed to support this task successfully.

It is emphasized that contributing to the control of COVID-19 is the responsibility of every citizen as well as every governmental, non-governmental and private institutions.

**More attention is to be paid to following activities.**

I.

- a) Strongly advocating all on continued practices to prevent spread (Distancing (D), Respiratory etiquette (Re), Aseptic techniques – hand hygiene and disinfecting common and frequently touched surfaces (A), wearing of Mask in public (M) - D Re A M) i.e., the New- Normal.

Therefore, a continuous program is needed to educate the public and communicate risks with wide media coverage in order to adhere to recommended health practices.

- b) Getting 100% coverage of vaccination for the recommended target groups.
- c) Refraining from non-essential travel and restricting movements outside home as far as possible.
- d) Safer transport methods should be used/ provided. Improving the availability of transport facilities that are less crowded.
- ✓ Only seated passengers in public transport.
  - ✓ Public and shared transport should preferably be non-air-conditioned, and windows should be opened.
  - ✓ All passengers should wear a mask properly during travel.
- e) The workplaces can function as usual adhering to the COVID-19 precautionary measures.
- f) The regulatory and monitoring program informed by Presidential Secretariat according to recommendations from Ministry of Health should be implemented as instructed to ensure compliance with the directions given.

The MOH is to be supported by the local committees including the community police force in supervising the public and work settings.

- g) The MOH, based on local monitoring of disease transmission situation will inform the DGHS for clearance on closure or functioning of public or work settings as per the directions issued by the Ministry of Health.
- h) Considering the controlled nature of the COVID-19 epidemic and the possibility of further escalation of the epidemic, the manner in which public activities are permitted is given in schedule below.
